**Subject:** RE: Clinton Engines Follow Up

Lisa, the SEMD Removal Program has completed the Removal Assessment of the properties adjacent to and downgradient of the Clinton Engines site and notified IDNR that the Superfund Program has returned the site to the IDNR VCP.

Shelly Nellesen is the IDNR Project Manager for the Clinton Engines site.

Good afternoon Todd and Yvonne,

I hope you are doing well. I am just double checking that all the EPA Superfund removal assessment correspondence with the City of Maquoketa ended, right? The reports were sent and everything is wrapped up?

I am planning to reach out to the City soon and want to make sure I have my facts straight. Due to a number of factors, it looks like we will be moving forward with a Targeted Brownfields Assessment for the Clinton Engines and Museum properties.

Thanks,

Lisa Dunning
